PROFESSIONAL SUMMARY

Aspiring Software Developer targeting entry-level Full-Stack Development and Software Engineering roles. Hands-on experience with Java, Python, SQL, HTML, CSS, JavaScript, and web application development. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks. Passionate about developing scalable software solutions and continuously enhancing technical skills.

EDUCATION

B.Tech in Computer Science and Engineering , Malla Reddy Engineering College For Women CGPA: 7.93	Expected 2027
Intermediate , TS Model School & Junior College, kathalapur Percentage: 77.7	2021 – 2023
10th Class , ZP High School, Mallial CGPA: 9.5	2020 – 2021

TECHNICAL SKILLS

Programming Languages	Java, Python
Full-Stack Development	HTML, CSS, JavaScript, Bootstrap, Flask, REST APIs
Databases	MySQL, MongoDB, DBMS
Computer Science	Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks
AI and Machine Learning	OpenCV, DeepFace, Image Processing, Emotion Detection
Developer Tools	Git, GitHub, VS Code, Eclipse, MongoDB Compass, Postman

INTERNSHIPS

SkillCraft Technology – Software Development Intern

- Developed practical software development skills by working on Java-based applications and real-world programming tasks. Gained hands-on experience in coding, debugging, and implementing Object-Oriented Programming concepts.

Kodbud – Java Programming Intern

- Developed Java applications using Core Java and Object-Oriented Programming concepts. Improved problem-solving and debugging skills through hands-on programming tasks and application development.

PROJECTS

Smart Waste Management

- Developed a full-stack Smart Waste Management System using Java, SQL, HTML, and CSS for waste tracking and collection management.
- Implemented user management and CRUD operations with database integration.

Demographic Analyzer: Gender, Age, and Emotion Detection

- Developed an AI-powered web application using Python, Flask, OpenCV, and DeepFace to detect gender, age, and emotions from facial images.
- Integrated image processing and machine learning models with a user-friendly interface to provide accurate real-time demographic analysis.

CERTIFICATIONS

HackerRank – Java (Basic)

Accenture: Software Engineering Job Simulation

Additional Certifications: Cisco, Oracle, Infosys Springboard, Cambridge English C1

ACTIVITIES

- Participated in technical workshops, coding challenges, hackathons, and college-level technical events.
- Collaborated in team-based academic and software development projects.
